EXPERIENCE

Software Engineer

Jupiter Money

June 2022 - Present

Bangalore, India

- Worked in the Cards team to develop a generic onboarding system for cards and integrated CSB bank for Rupay UPI credit card.
- Cancelled and closed 1L+ pending loans which helped the organization to get rid of technical debt.
- Contributed to the referral team to provide better referral attributions for users.
- Built minimum balance eligibility for referrals.
- Integrated referral coupon codes with referral links in the system.

Fellow

Polygon Fellowship

June 2022 - Aug 2022

Bangalore, India

- Attended sessions and submitted assignments in fellowship

Software Engineer

Zomentum

June 2021 - June 2022

Bangalore, India

- Built Stripe integration, which allows clients to take payments from Zomentum. Moreover Stripe integration has been used by many users and the cash flow using Stripe integration is more than 50k USD.
- Also built ConnectBooster integration and adjustment fees payment options which allow users to take surcharges in their document itself.
- Handled the integration of Canadian Dollar(CAD) support for document payments and contributed in Quick-books as an accounting integration.

Software Engineer Intern

Zomentum

Jan 2021 - May 2021

Bangalore, India

- Built several features in backend and frontend architecture, worked on integrating payment gateway (Connect Booster) in documents, apart from it, also worked with sales and marketing team to build python web scrapers for various purposes.

Student Developer

GOOGLE SUMMER OF CODE 2019 (CODEUINO)

May 2019 - Aug 2019

Remote

- Built 16 UI/UX modules for the social platform Donut with backend support under the span of 3 months.
- [Project Link](#)
