## EXPERIENCE

---

### Software Engineer

Zomentum

June 2021 - Present

*Bangalore, India*

- Built Stripe integration, which allows clients to take payments from Zomentum. Moreover Stripe integration has been used by many users and the cash flow using Stripe integration is more than 50k USD.
- Also built ConnectBooster integration and adjustment fees payment options which allow users to take surcharges in their document itself.
- Handled the integration of Canadian Dollar(CAD) support for document payments and contributed in Quick-books as an accounting integration.

### Software Engineer Intern

Zomentum

Jan 2021 - May 2021

*Bangalore, India*

- Contributed in Zomentum's frontend and backend architecture by implementing 6 additional features and refactoring existing code.
- Worked on technologies including ReactJS, Scala and MongoDB.

### Full Stack Engineer Intern

Polyrithm Technologies

Mar 2020 - Aug 2020

*Remote*

- Developed various features in frontend and backend for multiple projects.
- Worked on technologies including NestJS, Angular, MySQL and Docker.

### Student Developer

GOOGLE SUMMER OF CODE 2019 (CODEUINO)

May 2019 - Aug 2019

*Remote*

- Built 16 UI/UX modules for the social platform Donut with backend support under the span of 3 months.
- Worked on technologies including VueJS, NodeJS and MongoDB.
